

Gone with the wind (Vietnam 05)

1. High above
Beyond time and space
I'll sail through the night
Velvet sky telling me
A thousand foreign tales

About two lovers who once lived
For love and sharing this sweet gift
Their secret was their own
Their secret was their own

2. Far away
in a land so green
and dusty they lived
All the looks and the smells
so different from here

Though hiding what they felt
Against the jealous outside world
Their secret made love grow
Their secret made love grow

2. My love
did you ever feel
the way they did
In the night when her hand
was out of reach

My heartbeat next to you
Just could not comfort you
Your secret was your own
Your secret was your own
